DuPage Woodworkers Activity Village Woodwright Shop Tour 10:00 AM to 12:00 Noon -- November 16, 2019

Ed Bouvier, owner of the Village Woodwright (www.villagewoodwright.com) is hosting a tour at his shop at 10:00 AM on Saturday, November 16, 2019.

MY STORY (Ed Bouvier):

“I built my first footstool at age 10 and restored my first antique woven cane chair at age 11 - both pieces are still in use in my home today. Since childhood I have appreciated antique and unique furniture as well as historic architectural designs. Hands-on creativity and design has always energized me. My belief in redemption and restoration/rebirth extends philosophically to my tangible work restoring antique pieces to a new life of usefulness. I especially enjoy building my locally handcrafted, high-quality products to enhance daily life in my clients’ homes. Teaching others with enthusiasm and passing along appreciation for the craft is also a passion.

2018 brought to fruition a couple years of seeking a bigger, yet affordable, shop space. I've now renovated and moved into my new shop and am catching up on a substantial backlog of work. I am renovating the old shop as a teaching shop focusing primarily on traditional hand tool work.

Ed's shop is located at 26w215 Jewell Road; Wheaton, IL. There is some room in his driveway. Otherwise park on Elmwood Street, which is one block to the west. At his house please follow the wooden boardwalk from drive way to the shops
