Programs

- **October 21**
– [Turning Trees - Paul Pyrcik](#)
- **November 18**
– Shop Tips and Jigs
Continued
– Annual Toy Donation

President's Message - October 2024

I am really looking forward to this months meeting. DPWW member **Paul Pyrcik** will present on turning small items on the lathe such as Christmas tree decorations. Paul has presented to us in the past and has also presented to local and regional woodturning symposia. He always does a nice job and provides practical tips. He will be bringing his own lathe so this will be a great time to see actual woodturning in person.

I really enjoyed last months meeting with the useful jigs and tips provided by our members. I have already used a couple of the ideas.

St. James will be having their annual school auction on Friday, November 8. We have donated handmade wooden items in the past for this auction. Please consider donating a wooden item you have made for this worthy cause. I will be collecting these donations at the October general meeting. We do not pay for rental of our meeting space at St. James. This is one way we can give back to them for their hospitality.

Thanks to those that participated in our toy workshop the last Saturday in September. Please see our article later in this newsletter with information about the workshop and those that worked hard to make it happen.

This is the time of year when we start looking for filling our board member seats for 2025 and seeking the help of our members on our various committees. We are in need of someone to help set up coffee and cookies prior to our meetings. **Jim Harvey** can provide guidance. We also will be needing someone to head up our activities committee and can use help on the web and A/V committees.

Our Holiday Party will take place on **Monday, December 9** at Reserve 22 in Glen Ellyn. We have had our Holiday Part at Reserve 22 for the past few years. It has been a very nice time for members and their spouses to socialize and get to know each other better. I hope you will be able to attend. More information is in an [article later in this newsletter](#).

We always encourage feedback and thoughts about how to improve our organization. Please reach out to me or one of the other board members with your thoughts.

George Rodgers 708-623-9038 GLRodgers@comcast.net

DuPage Woodworkers Board Meeting — October 7, 2024

George Rodgers opened the Zoom meeting at 7:00pm. Present were Gordon Brand, Jim Harvey, Bill Hoffman, Bruce Kinney, Jeff Kramer, Tom Kubica, Bruce Metzdorf, Lee Nye, Dave Wesolowicz, Mark Wieting, Steve Young, John Zurales.

Agenda Additions, Changes and Approval – **John Zurales** asked to speak about

adding some items to sell to members. This will be addressed in the Old Business section of the meeting. The Board unanimously voted to approve the past meeting minutes.

Treasurer's Report: (Dave Wesolowicz) – Some renewals have started coming in. The current cash balance stands at \$5,098.

Communications:

Secretary – No report

President – No report

Standing Committee Reports:

Membership (Mike Kalscheur) – Membership levels stayed the same as last month. Membership renewal notices were mailed to 191 households. Renewals are coming in strong.

Library (Tom Kubica) – Some additional books were donated at the last meeting. Those not used in the library will be made available to members. **Jim Harvey** will be donating some additional books.

Publicity (Mark Wieting) – A reporter from CBS was invited to the second toy workshop but was unable to attend.

Prizes (Bruce Kinney) – The October prizes will be a Milwaukee Drill / Driver set for first place and a Dewalt 100 bit drill set for second place. There will be no raffle for the November and December meetings.

Toys (George Rodgers) – The second toy workshop took place on September 28 at the new [Woodcraft location in Downers Grove](#). 21 attended the event and 650 toys were prepared.

Newsletter (Jim Harvey) – There will be three main articles featured in this month's newsletter. The first will be coverage of the [toy workshop](#). The second will be on the [Marc Adams Masters program](#), The third will be an article on the steps / duties associated with the [production of the newsletter](#). Articles are due into Jim by this Friday.

From Our Workshop (Lee Nye) – There will be four [Woodpecker clamps](#) for the FOW prizes given out in October.

Activities (Jeff Kramer) – There has not been a

decision on the November activity at this point.

Programs (Bruce Metzdorf) – October's program will have **Paul Pyrcik** on turning bottle stoppers and trees, and enhancing your small turnings. November will feature additional member tips and jigs.

A/V (Howard Peterson) – No report

Web (Bill Hoffman) – There have been a few additional classified ads placed.

Old Business:

a. **Pat Armstrong wood sale update- Mike Kalscheur** – The October 4th sale brought in \$320.

b. **Clothing sales – John Zurales** – John proposed expanding our offerings to club members by including a variety of non-clothing items that members may wish to have personalized. John displayed a number of items available that could feature the DPWW logo. John is willing to handle the entire line of items and give the club a percentage of the sale. At the October meeting John will present some examples to the membership.

New Business:

a. **Ed Buhot activity offer- Jeff Kramer – Ed Buhot** has offered to teach a session on string inlays. He can accommodate no more than seven people per class. The class would be at his house. The club will cover the cost of coffee and donuts. November 9th is the anticipated date.

b. **Holiday Party – George Rogers** – The 2024 club Holiday Party will be on December 9th at Reserve 22. It was decided that the Little Italy menu will once again be used. The cost will be \$45 per person.

c. **Nominations update- Mike Kalscheur** – There are several open positions that need to be filled. Some interest has been shown by members to fill a need in the Web support, the Audio Visual support and in taking over the Newsletter.

Adjournment – 7:37pm

– **Steve Young**

October 2024 Meeting

Bruce Metzdorf, Program Director

Paul Pycik will talk about his methods for turning trees, bottle stoppers and other small items. Paul is bringing a lathe so this will be a live demonstration.

December Holiday Party

The holiday party replaces the December general meeting: **Monday, December 9th** at Reserve 22 in Glen Ellyn. Cocktails at 6:00 p.m. (cash bar). Dinner will be served at 6:30. The restaurant is part of Village Links golf course, 485 Winchell Way, Glen Ellyn, IL 60137, approximately 3 blocks north of St. James. Drive into Winchell Way to the clubhouse. Plenty of parking available. Dinner will be buffet style. A modified Italian dinner with Italian sausage, chicken piccata and penne pasta as the main dishes. The cost is \$45/person. This includes the meal, gratuity and taxes. Coffee and soft drinks are included.

In the past, those having a partner accompany them have made a small gift to be given away to another spouse/significant other. We encourage this tradition again this year, although participation in this portion of the program is optional. If you do not participate your spouse/significant other is not eligible to choose a gift. If you have any questions about our holiday party please contact **George Rodgers** at 708-623-9038 or glrogers@comcast.net

Cash or checks payable to the DuPage Woodworkers will be accepted at the October and November meeting. Checks can also be mailed to **George Rodgers, 5527 Grand Ave., Western Springs, IL 60558**. Payment is required by Friday, November 22.

For all you making Charcuterie boards, this is how you do one for Halloween.

Sawdust In Your Coffee

Sawdust in Your Coffee is our Zoom-based monthly discussion of wood related subjects. There were 5 participants at the October 5 Sawdust meeting. Topics discussed included:

1. Review toy workshop and possible improvements to production.
2. Church auction items still needed.
3. Daily drawings at Woodcraft.
4. Direct drive drill press.
5. Table saw blade recommendations.
6. Yesterday's wood sale.
7. Segmented knitting bowl.
8. QR code engraved block.
9. Fret saw holder.

There will be another SIYC meeting at **9:00 on Saturday, November 2**. Bring your questions, your progress, and/or your coffee. Expect the usual Email Zoom invitation.

— **Ron Colliander**

Marc Adams School of Wood Working (MASW) Masters Program

Just about everyone in our club knows about the Marc Adams School of Wood Working. But not everyone is aware of the Masters Certificate Program the school offers. The MASW Masters Program is the most recognizable and credible woodworking certificate program in America. To date, nearly 500 people have completed this program.

The philosophy of the Masters Program as set forth by *Marc Adams* is:

“Mastering a craft is not measured by the volume of work that you’ve produced. Nor is it measured by the books you’ve read, tools you own, what classes you’ve taken, or how good others think you are. Mastering a craft is a combination of desire, aspiration, and motivation. Every person who completes their Masters here at MASW has developed a passion for excellence that truly transcends time. And they have done it Masterfully!”

The Masters curriculum consists of nine full week courses on the topics listed below, plus a two- week apprenticeship:

- | | | |
|--------------|-----------------|---------------|
| 1. Joinery | 4. Design | 7. Turning |
| 2. Finishing | 5. Carving | 8. Elective |
| 3. Veneering | 6. Chair making | 9. Handskills |

Two-week Apprenticeship – This serves as a “capstone” for the Masters Program as the two Apprenticeships offered each year draw on the knowledge and skills learned through the courses taken to complete this program,

Further information on the MASW Masters program is available at: <https://www.marcadams.com/masters-program/>

Provided below are the DPWW members who are Marc Adams Masters and those who are working towards their Masters certificate. Each person has provided their thoughts on the Masters program. To see the full text of their comments go to: <https://www.dupagewoodworkers.org/newsletters/masters3/Masters3.html>

Coffee Makers

Gotta have coffee at the DPWW meetings! Thanks to everyone who pitched in at the 2024 meetings.

Anyone is welcome to make coffee. Just arrive a little after 6:00 and join the fun with others.

DPWW is currently looking for a member to oversee the kitchen.

Library

Jim Korreck donated books at the September meeting. Some will be added to the Library while duplicates will be put on the Sale table at the October meeting.

If you have books or DVD's on woodworking that you would like to donate you can bring them to a meeting or call or email me for a pick up at your home or another convenient location.

Membership News

Membership renewals were mailed to all 191 households, and 2025 dues are coming in strong.

Please welcome new member **Jim Mikkelsen** from Western Springs.

Jim learned about DPWW from a friend and lists sculpting as a woodworking interest. Total membership count is now at 209.

The October 4 Armstrong wood sale went well. Most of the lumber had been taken away by 10AM.

Toy Makers Workshop

The DPWW toy committee held a toy making workshop on Saturday, September 28 at the [Woodcraft Store](#) recently relocated to Downers Grove. It was our first time at this location. It is smaller than the previous location but we were able to make it work. We routed and assembled 100 doll beds. We also drilled, sanded, routed and glued wheels and axles to 500 vehicles and animal cut outs. We also assembled 50 pencil dog holders that included ears, feet and facial markings. Thanks to the 21 members that participated on Saturday. Special thanks to *Rick Ogren, Ron Colliander, Dave Wesolowicz, Whit Anderson, Bruce Kinney, John Grzanich* and *Jim Mikkelsen* for helping prepare the pieces to various stages of completion for use at the workshop. *Rick Ogren* and *John Grzanich* helped me set up the night before. Extra thanks to *Mark Wieting, Jim Harvey, Bruce Kinney and Ron Colliander* for providing some of their equipment to use. It would not have been a successful workshop without everyone's commitment. We can feel proud about the toys we will be able to provide to underprivileged children this Holiday season. Please remember we will be collecting toys at the November general meeting on **Monday, November 18**. They will be distributed that evening to organizations that provide them to needy children.

Thanks again to all those that helped. – **George Rodgers**

Newsletter Editor Wanted - October 2024

I've been the newsletter editor for six years, it's time to pass that torch. If you are at all interested, contact **Mike Kalscheur**. To give you an idea of what's involved, Here is a reprint of a series of articles written by **Bruce Kinney** in 2009. Bruce was a Microsoft person, I use Linux. In the November newsletter, I plan to lay out my work flow creating a newsletter, very similar to Bruce's but different software. – **Jim Harvey**

Newsletter Editor Wanted - Feb 2009

Editors Note: 2009 will be my last term as Editor of the DuPage Woodworkers Newsletter. 5 years is enough. Over the next few months, as space permits, I will describe just what is involved in producing the Newsletter each month. This is done in the hope that someone will come forward to continue publishing the Newsletter.

Production of an issue of the Newsletter begins with the photos taken at the general meeting. For the "From Our Workshop" segment I try to get at least 2 photos of each entry: one depicting the entrant with his or her project and a second closeup shot of the project. This serves several purposes: it associates the project with the entrant, produces a photo of the project which can be modified to show a large image of the project and provides photos for the gallery on the Club web page. I also photograph the program speaker and any other interesting events which occur at the meeting.

Following the general meeting and over the next few days, as time permits, I edit the photos and enter them in the Newsletter. I use 3 photo editing programs to accomplish this. Microsoft Office Photo Manager is used to do bulk editing such as rotate, crop and color correction. Modified photos are saved with a descriptive file name so as to retain the original intact. At this point the photo file size is in the order of 2 Mb and the photo size is huge perhaps 20" or so.

The next step uses Corel Photo Paint to resample the photos down to about 2" in the largest dimension, more suitable for inclusion in the newsletter. The resampled images are saved in the JPG format and compressed to a reasonable file size...about 10 Kb on average.

These images are ready for inserting in the newsletter. Some images are suitable for closeups of projects and PhotoShop elements is used to develop a transparent, cropped image and saved in the GIF format. All the images are saved in a folder named for the new

newsletter. For example, the photos from the January meeting are saved in a folder created for the February newsletter.

At this point the photos are ready for inclusion on page 5 of the Newsletter, but there is no Newsletter to include them on.

To begin the newsletter, I open last month's newsletter and "save as" this months newsletter. The normal newsletter consists of a Microsoft Publisher file. That file has 3 master pages which layout the title page and the left-hand and right-hand pages. These master pages contain the issue number, page number and top and bottom of the page information. This is updated to reflect current information using the "Find and Replace" menu in Publisher.

At this point the only available information is the collection of edited photos and they are inserted onto page 5, resized as appropriate, captioned using the "From Our Workshop" slips entrants prepared at the general meeting, and laid out in a pleasing manner. The goal here is to fill the space on page 5. So few pictures results in big pictures and many photos results in smaller pictures. That's it, page 5, the most time consuming page is done.

At the Board meeting (1st Monday of the month) the deadline for newsletter stuff is set and the treasurer's report is received. This provides information for page 6 which also includes the secretary's report of the Board meeting. That report usually comes within a day or two of the board meeting. A cut and paste on the secretary's report, updating the treasurer's report as well as updating the ClubCalendar finish page 6.

Over the next few days the information from various committees arrives via email and is stored inn the newsletter folder. Standard items include "The Presidents Corner", "Programs", "Activities", "Library Report" and information about guests and coffee hosts. There may also be information about upcoming activities like the

club auction, Woodworking Show etc. As these are received they are cut and pasted into word documents and saved in that months newsletter folder. As time permits, each of these items is pasted into their appropriate space in the newsletter, formatted and spell checked. Contributors to the newsletter are quite good at meeting the newsletter deadline so, for the most part, little follow-up is needed.

The real challenge is to fit all the information into the 6 pages with little white space. Usually this can be accomplished by adjusting the size of graphics, adding Club logos and adjusting font size to make it all fit. For the event that there is a large chunk of unfilled space, I maintain a file of woodworking tips which I harvest from various woodworking magazines. It's a simple matter of cut and paste to utilize a tip to fill space. If a whole page can be made blank, it is a simple matter to delete a page. The Activities Committee report generates the data for the Programs & Events section on page 1.

An aside here is photos for the web page. Copies of the unedited photos of projects along with a description of each photo are assembled in a folder and sent to the webmaster. This is accomplished using a freeware FTP program, FTP Commander, to upload that folder to the newsletter directory on the web page. The web master takes those photos, edits them and puts them on the web page.

At this point, the construction of the newsletter is complete and it now must be distributed. At this point, the construction of the newsletter is complete and it now must be distributed. About 40 copies of the publisher file are printed in gray-scale format on 3 hole punched 20lb copy paper. These are folded and stuffed into preprinted and stamped envelopes.

I use Microsoft Outlook as my email editor and have created a series of distribution lists. Two of those lists contain vendors addresses and the addresses of those who receive their newsletters via paper mail. Printing envelopes for these newsletters can occur at any time after the Board meeting.

Outlook also allows me to create a template for the email that announces the availability of the new newsletter. My distribution list for this email consists of 2 distribution lists with about 50 email addresses in each. Gmail is my

choice of email provider and it balks at about 100 bcc (blind carbon copies).

Using a template means I only have to compose one email and send it several times with different addresses. And, the words in the email are basically the same month after month so it is only necessary to make minor changes in that email each month. There are two forms of the templates. One for comped newsletters which does not contain information about the club roster and another that does.

The email version of the newsletter is posted in the web page in PDF format which is readable by anyone using Adobe Reader. I use a freeware program, Primopdf, to convert the Publisher file to PDF format. This process is as simple as opening the Publisher file and printing it to Primopdf. The net result is a PDF file which is somewhat compressed and ready for uploading to the web site newsletter directory. At the web site, access to the newsletter is obtained by clicking on the proper line on the newsletter page. Clicking that line takes one to a file named LatestDPWnews.pdf, no matter what the date is. Thus, after creating the PDF file, it is re-named LatestDPWnews.pdf and uploaded to the newsletters directory on the newsletter web page using the now familiar FTP Commander, overwriting last month's version. A properly named version is also uploaded for the webmaster to install in the archives.

Prior to sending the emails, I test all the links in the email to ensure they have not been broken somewhere in the process. Sending the emails is as simple as opening the template file in Outlook, adding the addresses from the distribution lists and clicking "Send". The final step is to monitor incoming email for rejected emails. These are rejected for a variety of reasons. The most prominent reason is a full mailbox. I ignore these. The second most prominent reason for rejected email is a changed address. These I deal with on a phone call. There are also a number of rejections due to security software which would require me to resend in so many minutes. Recipients have options to eliminate this requirement on a per sender basis so I ignore these as well. That is it.

Now it's up to one of you to come forward and assume the Newsletter editor job if you wish to have the monthly newsletter continue.

– **Bruce Kinney**

September Meeting Recap

The meeting was dedicated to DPWW members showing various jigs and fixtures they had created. Here is a partial list of ideas exhibited:

Woodpeckers [Exact 90 miter gauge](#)
 Brian Boggs [scarf joint](#)
[Saw Stop dado stack nut](#)
 Reinforce sand paper with duct tape
 Jig to hold pocket hole jig
 Self stick shelf paper dispenser
 Jigs to make Roubo Cell Phone stand
 One degree tapered spline jig
 Vacuum work holder
 Plane modified for shooting board

[Sea Drops](#) to keep mask clear
 Washable dust mask
 Long neck oiler
 B&D work mate converted to desk top
 Log resaw jig
 Ridgid sander dust port addition
[Heat Shrink Tape](#)
 Mineral Sprits for dust removal
 Alex Snodgrass pencil magnets
 Dowel holder from wooden clamp

Favorite Shop Tips and Jigs (Additional) – November 2024 Meeting

Bruce Metzdorf, Program Director

As a follow-up to the September meeting, any of you who may have missed presenting or have additional presentation topics, we have time for some additional presentations at our November meeting. The November meeting typically has a short program due to the toy exchange. You can have up to five minutes to present your favorite(s).

Tips can be small or large things that you use in your own shop. They do not have to be your original idea, as long as you credit the originator.

Do you have a jig to do a specific cut or operation and you use it on a regular basis? Maybe for your table saw or band saw or for your drill press? You can show photos of your tip or jig in use. If it is too big to bring in, take a few photos of it in use. Send the photos to brucethewoodworker@gmail.com and I will create a PowerPoint presentation to show for that evening.

You can show tips like the one I presented in 2023 from *Alex Snodgrass* that puts a small magnet on a pencil using heat shrink tubing. Alex puts these all around his shop, sticking to all his metal stationary tools. Or things such as circle-cutting jigs for the band saw or maybe a table saw sled.

LET ME KNOW IF YOU HAVE MATERIAL TO PRESENT, SEND ANY PHOTO'S OR POWERPOINT PRESENTATIONS TO ME BY NOVEMBER 8th, TO BE INCLUDED IN THE PROGRAM FOR NOVEMBER 18th.

This is a method to make a lift off lid on a box. Saw grooves in side pieces before glue up. Make the "Cut" dimension the same as your saw blade thickness

Workshop on String Inlay by Ed Buhot

Saturday, November 9, 2024, from 9:30 AM until noon

Ed's Workshop – 4040 West End Rd. Downers Grove

Ed is offering to conduct this workshop to any DPWW member. Workshop size will be limited to 6 to 8 people. Workshop space will be on a first-come, first-served basis. If more people are interested, Ed will hold additional sessions to satisfy the demand.

The workshop will be a mix of discussion and hands-on.

- The object of the workshop would be to take some of the mystery of adding string to a project.
- Get a feel of some of the tools used to create the channels for the string by using them.
- Creating and fitting the string into the channels.
- Touch on some considerations when adding curved string to a project.

Part of the discussion would be about:

- The best wood selection for projects using string.
- Sources of material.

And of course, those considerations when things don't go as planned. Not that that ever happens.

This program is intended to introduce the participants to string inlay and for Ed to offer himself as a contact. He will be providing all the materials.

to register for this activity, [complete the online form](#).

<https://www.dupagewoodworkers.org/gallery/Buhot2024.html>

Borrow DPWW Tools - New Sponsor!

One benefit of being a member of the DuPage Woodworkers is that we have tools you can borrow. Our Work Sharp has been upgraded with a knife and scissor sharpening attachment. Also DPWW now has a Performax 12" planer, an HVLP sprayer, and a small bandsaw. The scroll saw, **moisture meter**, metal detector, Work Sharp, Performax planer, sprayer, bandsaw, and Drill Doctor are available to members by contacting **Gordon Brand (630) 661-0476 Gbrandm58@gmail.com**

From Our Workshop - September 2024

Prize Drawing Winners

George Rodgers, Ron Colliander, Rick Ogren

From Our Workshop - October 2024

Prizes will be:

Four Woodpeckers clamps

DPWW Logo Clothing

Welcome to all new DPWW Club members. Stop by my table to introduce yourselves and learn what the club has available in clothing with the DPWW embroidered logo. I just placed an order with our supplier for shirts for those who gave me orders. It should be available for the November meeting. Now is the time to think of Holiday gifts for family and friends if you wish to order.

Thanks, – **Carl Shaffer 630-251-3106**

September Door Prize winners

Jim Beaurain, Paul Pycik

October Door Prizes

Door prizes this month will be:

- Milwaukee Drill/Driver
- DeWalt 110 piece bit set reported to have been used only once or twice.

Tickets are \$2 for 1, \$5 for 3, \$10 for 7, \$15 for 11, \$20 for 15.

– **Bruce Kinney**

From Our Workshop September 2024 - Click to Enlarge

These projects, projects in progress and many more can be seen on your [DPWW Gallery Web Page](#). These projects were submitted prior to our September 16 meeting, or were shown in person at the meeting. With our meetings held via Zoom and inperson, if possible, still submit photos of your current projects to Mike Perry and Lee Nye via [Google Forms](#) for inclusion in next month's newsletter. Submitted projects will also be featured during the next in person and Zoom monthly meeting "From Our Workshop" session.

Gordon Brand - Segmented Bowl
Walnut, Maple - Danish Oil & Wax

Paul Pycik - Turned Trees
Cherry, Maple, Basswood - Deft Lacquer

**Bob Bakshis - Sword (Lithuanian)
Pine - Poly**

**Don Burgeson - Bat House
Club Wood - None**

**Vaibhav Konanur - Outdoor Bench
Cedar - Shellac, Poly**

About From Our Workshop

FOW is an important part of our DPWW meetings and we love to see what other members have made. Please continue to submit photos online, even if you plan to bring your project to the in person meeting. You can find [the online form](#) under the [members only tab](#) on our web site. The Google form asks for your name, for project info, then allows uploading up to three image files. Your photos, on screen at the meeting and on Zoom give everyone a better view of projects. Whether in-person or on Zoom, you can speak about your project when called upon.

Please continue to bring your projects to the in-person meetings so we can see them before the meeting and during breaks. There will be a drawing at the October meeting for FOW prizes to those who attend in-person. If you need assistance submitting project photos, contact:

— **Lee Nye** woodworkerlee828@gmail.com.
