

Doll Furniture Chair

Chair Notes:

This sturdy chair is Barbie sized, but most recent Barbies don't bend at the knees. As a result Barbie's chair is mostly a decoration as Barbie herself can't sit. Still, she can stand prettily beside the chair.

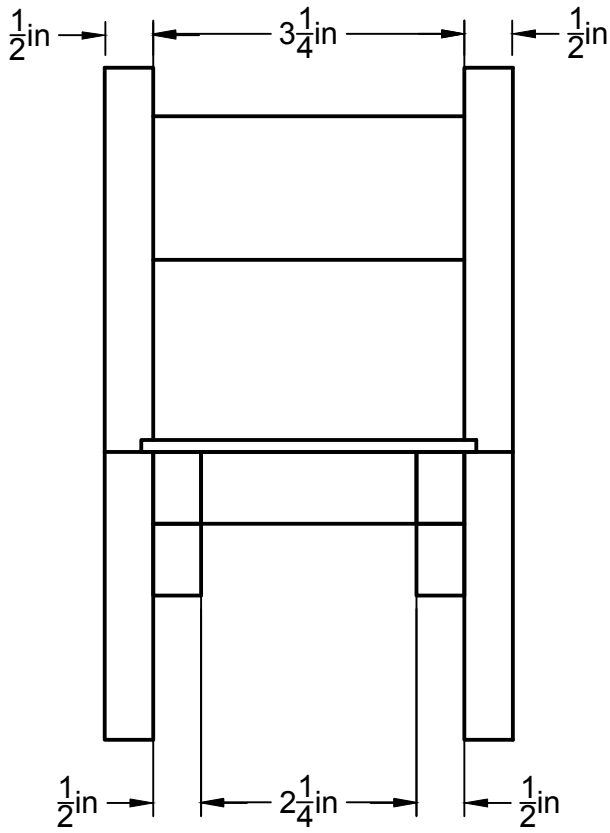

You can make all kinds of changes to the chair if you want. This version is made from 3/4" x 1/2" stock, except for the back rest and the seat. The back rest is 1/2" x 1 1/2" x 3 1/4". The seat is made from 1/8" plywood.

Errors:

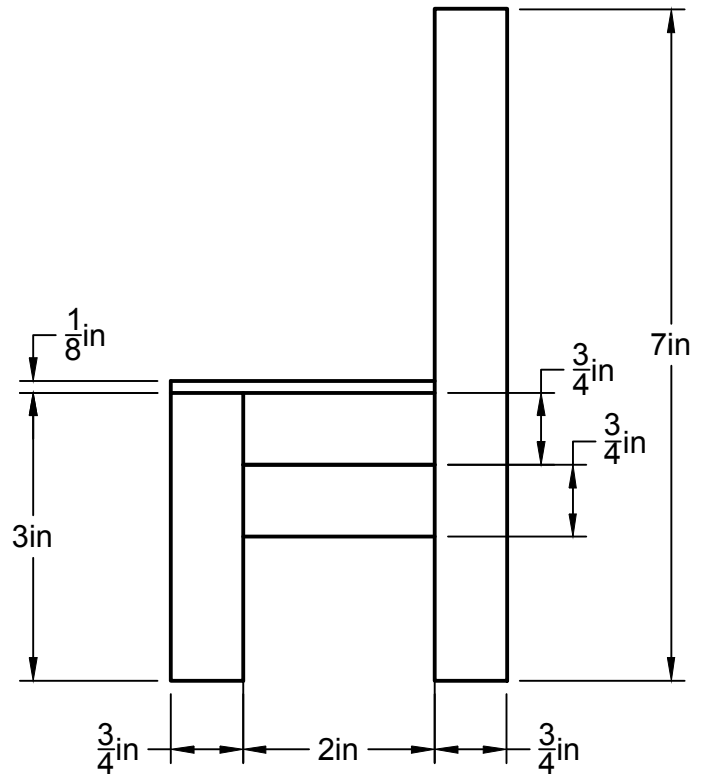

Every effort has been made to avoid errors in these plans. Still, sometimes mistakes occur. If you find errors in these plans, please notify the toy chairman so that corrections can be made and the next person spared having to deal with that problem. Thanks.
