

## Keeper Box—Operation Sheet

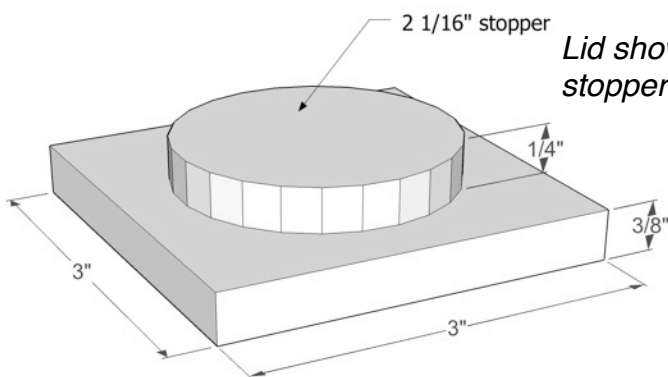

Body Material: 2 x 4 cut to 3" x 3" x 1 1/2"

Top Material: 3/8" pine cut to 3" x 3" x 3/8"

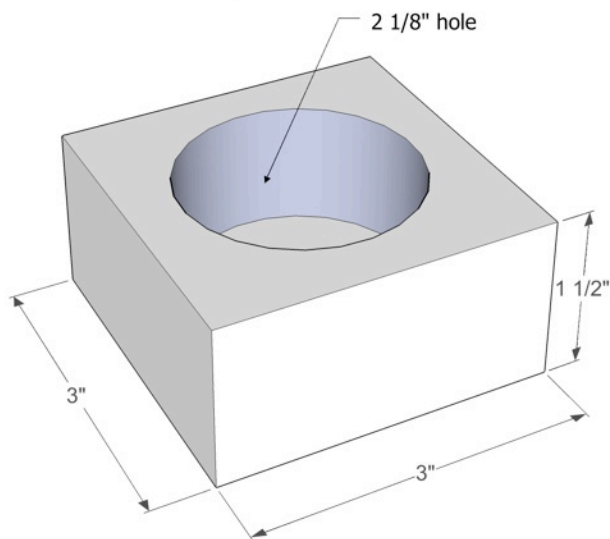

Finish: None, bare wood

### Operations:

1. Cut wood to final dimensions
2. Drill 2 1/8" hole to within about 1/4" of bottom.
3. Create lid with 2 1/16" stopper to fit into box.  
*or, use a wheel axel as a pivot hinge as shown in left keeper box in photograph (no stopper).*
4. Use sandpaper to soften/round edges of the box.
5. Create decoration for top (heart, star, apple, mushroom, etc.)

*Lid shown upside down to display the stopper that fits into the box*

*Drawing not life-size.*
